

Application of the Division II Organized Competition Before Initial Collegiate Enrollment Legislation (NCAA Bylaw 14.2.4.2)

The NCAA Eligibility Center certifies the amateur status of individuals to verify their eligibility to compete at NCAA Division I and II institutions. Student-athletes are certified after high school graduation and before initial collegiate enrollment. Amateurism certification includes a review of organized-competition activities. This document is intended to assist you in understanding the application of Division II organized-competition legislation, which differs from Division I regulations. If you have questions about the application of the legislation, please contact the Division II institution that is recruiting you for more information.
